Customer support

Our customer support will help you with anything related to the meddo solution and you don't need to pay extra fee.

Management and organization

Schedule integrated with USG

Scheduling has never been so simple. All visits scheduled in calendar are automatically sent to Ultrasound (worklists).

Online booking

Thanks to meddo online booking service you car gain new patients from Internet right into your scheduler. It's great for filling empty slots.

Check-in

One click check-in helps clinic's personnel to control patient's flow. With patient time control you know how much time each patient is waiting.

Cam Scanner

meddo Cam Scanner allows you to scan multiple pages in seconds, just with one click. It's a great alternative to classic scanners.

Billing

With integrated billing module which enables seamless capture of billing data beginning at the scheduling event. Registration and claims edits facilitate accurate billing.

Reporting

In reporting module you can generate all sort of reports from medical, statistical and billing data. You can also export reports to other systems.

Modern patient card

Timeline

With timeline feature you can see patient's history. Documents are available with quick preview.

Quick preview

Quick preview feature allows user to preview all documents generated by the system and uploaded by clinic personnel. Also quick preview can handle DICOM files.

webDICOM

meddo webDICOM is fully featured DICOM browser with no need to install extra software or additional configuration.

Study images quick preview

Timeline with patient history overview and quick document preview

Modern Doctor experience

Custom Forms

Custom forms allows Doctors to make clickable forms that will speed up their workflow. Those forms could be used on tablets.

Dictation

meddo is integrated with digital dictation and voice recognition system.

Extra documents

Very easily create prescriptions, certificates and referrals directly from patient records. You can use custom templates.
